Templates

Templates

Below are the available templates for flow cytometry panel design, cell sorter setup, and protocol authoring.

Flow Cytometry & Cell Sorting Templates (Excel)

These templates provide standard configurations for designing antibody panels or recording sorter settings.

Template	Description	Download
221130_Mouse_Sony_MA900_sort_panel.xlsx	Mouse Sony MA900 sort panel template	Download
ARIA_Fusion_cell_sorter.xltx	BD FACSAria Fusion cell sorter template	Download
ARIA_III_sorter_template.xltx	BD FACSAria III sorter template	Download
BD_FACS_CANTO_II.xltx	BD FACSCanto II acquisition template	Download
BD_LSR_Fortessa.xltx	BD LSRFortessa acquisition template	Download
Cytek_Aurora_4 laser_16UV-16V-14B-8R_panel_template.xltx	Cytek Aurora 4-laser (16UV/16V/14B/8R) panel template	Download
Melody_sorter_template.xltx	BD FACSMelody sorter template	Download

---

Quarto Authoring Templates

These internal templates are used to generate new protocols and buffers in this protocol library.

Template	Description	Download
protocol_template.qmd	Base template for new protocol `.qmd` documents	Download
buffer_template.qmd	Base template for new buffer `.qmd` documents	Download
naming_guide.qmd	Naming convention guide for files and protocols	Download
index.qmd	This templates index page	Download
